

Library options for Fabius Residents

It's important to understand Fabius township does not operate from property tax revenue. Although the State of Michigan requires our township treasurer to collect the tax monies for them, the money does not stay in the township. It is almost all redistributed to the county, the State and the local school system. All services provided by Fabius township including the following, fire protection, a deputy sheriff, road maintenance, recycling services, ambulance service, landfill passes and all voting services are offered at no cost to your property tax bill. Reimbursement for library membership is not up for consideration. I think it is worth noting however that Mendon and Constantine libraries offer 100% access to non residents for free. The Marcellus library offers 100% access for \$20 for a lifetime for non residents. The White Pigeon library offers open access to non residents for \$25 per year.
